Education

Koneru Lakshmaiah Education Foundation

2024 – 2028

B.Tech in Computer Science and Engineering

CGPA: 9.1

Skills

Programming: Java, JavaScript, C

Web: HTML, CSS, React

Core: Data Structures and Algorithms, OOP, DBMS, OS, Computer Networks

Tools/Technologies: Git, VS Code, AWS (Basics), Spring Boot, MySQL

Projects

Online Quiz and Exam Management System (Full Stack)

- Developed a full stack web application using React.js and Spring Boot for conducting online quizzes and exams
- Implemented REST APIs for user management, exam creation, and automatic evaluation
- Designed MySQL database with authentication and role-based access control
- Integrated AI-based feedback and performance analytics for adaptive assessments
- Built secure and scalable system with performance tracking and result analysis

Virtual Memory Visualizer (Operating Systems)

- Simulated virtual memory management concepts such as paging and page replacement algorithms
- Implemented algorithms like FIFO, LRU, and Optimal page replacement
- Visualized memory allocation and page faults for better understanding of OS concepts
- Improved analytical and debugging skills through simulation-based learning

Student Management System (Java)

- Developed a Java-based application to manage student records and study materials
- Implemented CRUD operations for efficient data handling
- Applied object-oriented programming concepts for modular design

Experience

Aspiring Software Developer

- Practicing Data Structures and Algorithms regularly
- Building projects using Java, Spring Boot, and web technologies
- Solving coding problems on LeetCode and CodeChef

Coding Profiles

LeetCode: leetcode.com/a_akhil_30540

CodeChef: codechef.com/a_akhil_30540
